

How to get paid

1. After getting your account approved by your affiliate manager, sign in to Hasoffer.
2. Link your affiliate account to your Payoneer account to start receiving payments:
 - a. In the **Dashboard** tabs menu, go to **My Account** and then click **Billing** underneath.
 - b. Click **Register for Payoneer**.

- c. At this stage, you will be redirected to Payoneer's registration page. If you already have a Payoneer account, click **Click Here!** and then link your account to start receiving payments. If you do not have a Payoneer account, complete the four-step registration process.

The screenshot shows the Payoneer Sign Up page. At the top, there is a progress bar with four steps: Getting Started (active), Contact Details, Security Details, and Almost Done. A red arrow points from the 'Getting Started' step to a pop-up box that says 'Already have a Payoneer account? Click Here!'. Below the progress bar, there is a section titled 'Select your type of business' with two options: 'Individual' (selected) and 'Company'. The 'Individual' option has a subtext 'My business isn't registered'. The 'Company' option has a subtext 'Includes sole proprietorship, corporation, LLC'. Below this, there is a section titled 'Please fill in the fields in English characters only' with several input fields: 'First name' (filled with 'Ammar'), 'Last name' (filled with 'Bashir'), 'Email address' (filled with 'ravians808@gmail.com'), 'Re-enter email address' (filled with 'ravians808@gmail.com'), and 'Date of birth' (with a calendar icon). A blue arrow points to the 'Email address' field. At the bottom, there is a 'NEXT' button. Below the button, there is a small disclaimer: 'By clicking "NEXT", you confirm that you have read and understood the Payoneer Privacy & Cookie Policy and agree to its terms.'

- d. Once you have completed the registration process, in **Billing Preferences**, you can see that your **Payoneer Status** is **Approved**.
